
Variance of Error Estimation (Testing Zhang et al. $\gamma$)
Distortion Std $\sigma(\frac{\|\Psi e\|^2}{\|e\|^2})$
Validation Measurements $r$
Dense Gaussian
Dense Rademacher
Sparse Rad (q=0.5)
Sparse Rad (q=0.2)
Sparse Rad (q=0.05)

Model Selection Accuracy Rate vs Validation Budget $r$
Selection Accuracy $P(\hat{j}=j^*)$ (%)
Validation Measurements $r$
Dense Gaussian
Dense Rademacher
Sparse Rad (q=0.5)
Sparse Rad (q=0.2)
Sparse Rad (q=0.05)

Ordering Preservation (Kendall's $\tau$) vs Validation Budget $r$
Mean Kendall's $\tau$
Validation Measurements $r$
Dense Gaussian
Dense Rademacher
Sparse Rad (q=0.5)
Sparse Rad (q=0.2)
Sparse Rad (q=0.05)

Signal Norm Estimation Error vs Validation Budget $r$
Median Relative Error $\frac{|\hat{E}_j - E_j|}{E_j}$
Validation Measurements $r$
Dense Gaussian
Dense Rademacher
Sparse Rad (q=0.5)
Sparse Rad (q=0.2)
Sparse Rad (q=0.05)
